## Secrets Of The Movies Revealed

Q.—Who is the film actress whose recent death makes it necessary to retake a picture which was partially completed?

A.—How precarious is picture making is illustrated in the recent sudden death of Clara Seymour, 31, W. Griffith's beautiful new star. Her illness, suspended at tremendous cost the filming of "Way Down East," which Griffith is producing. Her death now means that all scenes in which she appeared must be retaken, as there are no understudies in the movies and rarely can a double be found to take an important part. Griffith set a record by paying \$170,000 for the filming rights to "Way Down East." Miss Seymour's pathetic death, following an operation, undoubtedly halted a wonderful screen career. The death of a prominent player during the filming of a picture has happened but a few times before.

Q.—What screen star, on account of her extreme youthfulness and tender age, was told to bring her mother when she first applied for work in legitimate productions?

A.—Louise Huff.  
Q.—What nationality is Eileen Percy?  
A.—Irish and proud of it. Eileen Percy, 20, is producing companies distribute their pictures?  
A.—No, there are several producing companies which have no distributing organizations and their products are distributed by companies which operate in distribution, several of the larger producers own their own distributing organizations and now the tendency is to own their own theaters too.

Q.—What is Marjorie Daw's real name?  
A.—Marjorie House.
